SEASONINGS

Great taste starts with extraordinary ingredients.

Seasonings is an essential element of all kinds of food. They play an important role in the consumption and acceptance of food. The importance of

Flavors in food with regards to its palatability is well known. Not only must food be full of flavors it must also conceptualize well. Flavors and seasonings ignites our senses and arouses the desire of cosuming the food.

Food Colors

Color is important for identifying foods, judging their quality, and eliciting aesthetic pleasure in our encounters with them. Color is usually the first food attribute to strike the senses. Our company offers single source colors and unique color shades tailored to the needs of our customers. Since its inception Essentia has been manufacturing Natural Food Colours. It also serves the needs of a variety of Food and Beverage Industries. We offer a wide range of Natural Food Colours in liquid form which have greater stability and specific application assistance.

FRAGRANCES

Fragrances add power to senses, they lend wings to the soul, arouse the senses and unleash the passion. They offer a pleasant aroma that rejuvenates and ignites the senses. Fragrances influence our feelings or awaken long forgotten memories more strongly than any other sensations. Smelling a certain fragrance can signal a season or a treasured memory or simply make a mundane task like cleaning a little more enjoyable. Moreover, their stimulating and aphrodisiac qualities keep our body and brain relaxed, active, sharp and alert. Fragrances on the whole invigorate indulgence.
